State of Utah
Department of Natural Resources
Division of Wildlife Resources
P.O. Box 2394
St. George, Utah 84771

Reference: Wildlife Impact Summary - January 1994

Dear Mr. Schijf:

We have no wildlife mortality to report during the month at our mine site.

No leaks from leak detection systems were reported.

On January 4, 1994 there was a spill of solution on site. Approximately 200 gallons of 100 PPM solution was spilled. All solution was cleaned up immediately by removal of wetted soils and placement on the leach pad. Utah Division of Water Quality was notified immediately, verbally and by mail with a follow-up report.

Sincerely,

USMX OF UTAH, INC.

Robert K. Wilson
